Ongoing Webinar Photos:

Knowledge Gained from Webinar

1. What is Cyber Security

2. Need of Cyber security

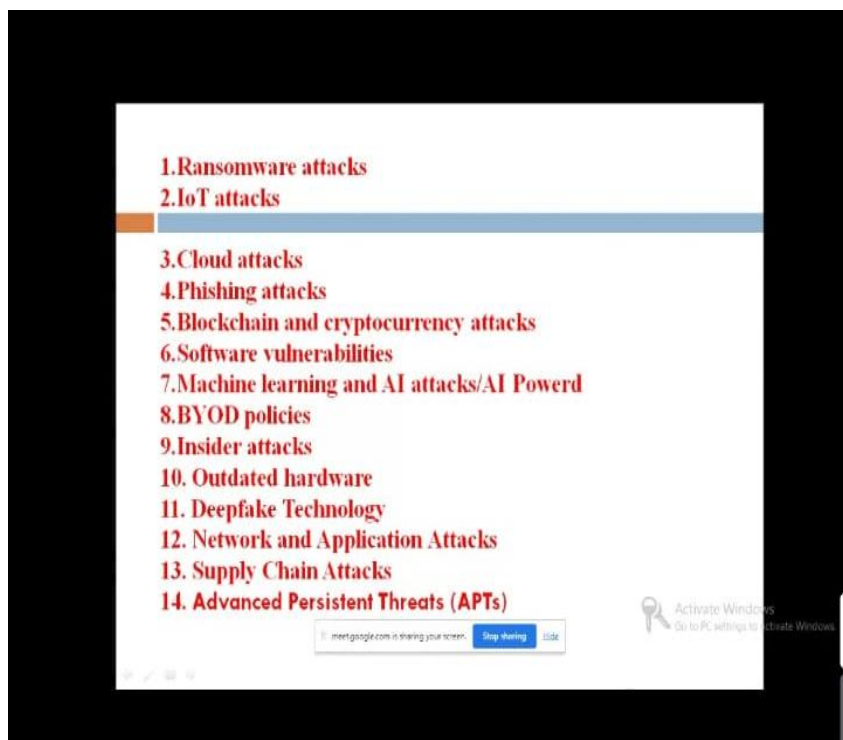

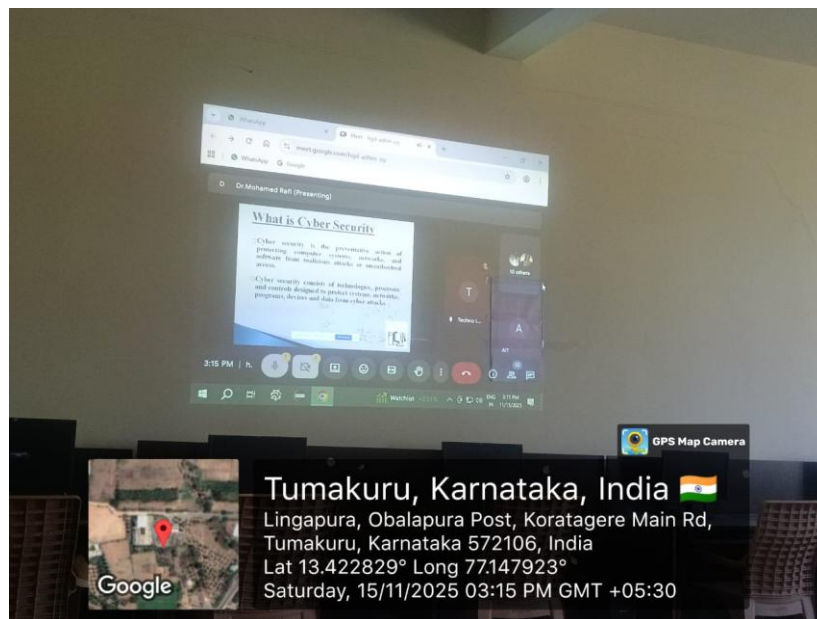

3. Types of Cyber security Threats

- Malware
- Denial of service
- Man in the Middle
- Phishing
- SQL injection
- Password attacks

4. Top Cyber security Threats in 2025

5. Attacks in Cyber Security

- Ransom ware Attack
- IOT Attack
- Cloud Attack
- Phishing Attack
- Block chain and crypto currency Attack
- Software Vulnerabilities
- Machine Learning and AI Attack
- Bring your own device policies
- Insiders Attack
- Outdated Hardware
- Deep fake Technology
- Network and Application Attacks
- Supply Chain Attacks
- Advance Persistent Threats

Feedback taken from Participants

Timestamp	Email Address	Participant Name	Designation	Email ID	Was the Speaker Clear and Understandable in their content delivery?	How would you rate the depth of subject knowledge demonstrated by the speaker?	Was the content relevant to the Webinar theme and your academic/professional interests?	Was the session interactive and engaging?	Did the session provide practical insights, use cases or examples?	What is your overall rating for this session?	What did you like most about this speaker?	Any additional comments or observations?
11/15/2025 17:12:07	keerthishree53@gmail.com	Keerthishree PV	Assistant professor	Keerthishree53@gmail.com	yes	5	yes	Strongly Agree	Yes	Excellent	Interaction	No comments
11/15/2025 17:14:57	ashamanoj204@gmail.com	Asha D	Assistant professor	ashamanoj204@gmail.com	yes	5	yes	Strongly Agree	Yes	Excellent	Good	No
11/15/2025 17:45:46	karthikhd23@gmail.com	Karthik HD	associate Professor	Karthikhd23@gmail.com	yes	4	yes	Neutral	Yes	Good	Expiation with perfect example	No
